Waleed Hamza
FULL STACK DEVELOPER
www.waleedhamza.com

Summary

Solution-focused engineer eager to tackle challenging issues and provide innovative solutions. Persistence, personal integrity and a positive attitude are major strengths consistently cited by managers and team members. I'm a resourceful life-long learner, who enjoys collaborating across multidisciplinary teams, but also can work independently as needed. I'd love the opportunity to grow as a user-centered software engineer, and improve the human condition one digital product at a time.
